

## 2010 Amada LC3015 F1 4kw Laser Cutter

Stock No: 1670

|                                           |                                                               |
|-------------------------------------------|---------------------------------------------------------------|
| <b>Model</b>                              | Amada LC3015 F1 4kw Laser Cutter                              |
| <b>Year</b>                               | 2010                                                          |
| <b>Controlled Axis</b>                    | X, Y, Z axes (three axes controlled simultaneously ) + B axis |
| <b>Axis Traverse Distance</b>             | 3070 x 1550 x100mm (Z Axis)                                   |
| <b>Max. Guaranteed Material Thickness</b> | 20mm Mild Steel<br>12mm Stainless<br>10mm Aluminium (A5052)   |
| <b>Max. Processing Dimensions</b>         | 3070mm x 1550mm                                               |
| <b>Maximum Simultaneous feed rate</b>     | X/Y, 170m/min                                                 |
| <b>Positioning Accuracy</b>               | +/- 0.01mm                                                    |
| <b>Maximum material mass</b>              | 920 Kg                                                        |
| <b>Rated Output</b>                       | 4000W                                                         |
| <b>Processing Surface height</b>          | 940 mm                                                        |
| <b>Oscillator</b>                         | AF 4000i - C                                                  |
| <b>Machine Length</b>                     | 9845mm                                                        |
| <b>Machine Width</b>                      | 2910mm                                                        |
| <b>Machine Height</b>                     | 2010mm                                                        |
| <b>Machine Weight</b>                     | 10,100kg                                                      |

|                           |                                                                                                                                                                  |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Standard Equipment</b> | Process Monitoring System<br>Oil Shot<br>WACS<br>Nozzle Changer<br>Nozzle Cleaner<br>X-direction Conveyor<br>Shuttle table<br>One touch Lens and Nozzle Exchange |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                |         |
