

## 2014 Amada LCG AJ 3015 2kw Fiber Laser with LST3015 (1960)

Stock No: 1960

|                                                 |                                                                                               |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Model</b>                                    | Amada LCG AJ 3015 2kw Fiber Laser with LST3015                                                |
| <b>Year</b>                                     | 2014                                                                                          |
| <b>Controlled Axis</b>                          | X, Y, Z axes (three axes controlled simultaneously ) + B axis                                 |
| <b>Axis Traverse Distance</b>                   | 3070 x 1550 x100mm (Z Axis)                                                                   |
| <b>Max. Guaranteed Material Thickness</b>       | 16mm Mild Steel<br>10mm Stainless<br>8mm Aluminium<br>5mm Brass<br>4mm Copper<br>5mm Titanium |
| <b>Max. Processing Dimensions</b>               | 3070mm x 1550mm                                                                               |
| <b>Maximum Simultaneous feed rate</b>           | X/Y, 170m/min                                                                                 |
| <b>Positioning Accuracy</b>                     | +/- 0.01mm                                                                                    |
| <b>Maximum material mass</b>                    | 920 Kg                                                                                        |
| <b>Rated Output</b>                             | 2100W                                                                                         |
| <b>Processing Surface height</b>                | 940 mm                                                                                        |
| <b>Oscillator</b>                               | AF 4000i - C                                                                                  |
| <b>Machine Length (including shuttle table)</b> | 10136mm                                                                                       |
| <b>Machine Width</b>                            | 2840mm                                                                                        |
| <b>Machine Height</b>                           | 2432mm                                                                                        |
| <b>Machine Weight</b>                           | 9100 kg                                                                                       |

|                                 |                                                                        |
|---------------------------------|------------------------------------------------------------------------|
| <b>Standard Equipment</b>       | Oil Shot<br>WACS<br>Nozzle Cleaner<br>Shuttle table                    |
| <b>Shuttle Table</b>            | Max Material Dimensions:<br>3070mm x 1550mm<br><br>No of Pallets:<br>2 |
| <b>Numerical Control Model:</b> | AMNC 3i                                                                |
|                                 |                                                                        |
|                                 |                                                                        |

## Features and Benefits

**Warranty:** Parts and labour warranty (UK). Installation and training available.

**Availability:** Ex stock.

**Condition:** Available to view in our Warehouse near Sandbach, Cheshire, UK. Jct17 M6.

**Price:** P.O.A
